YUKINESS & HETTY ROSE

Bespoke shoe designer Hetty Rose and remarkable wig designer Yuki Saito of Yukiness have combined talents in an amorous collaboration especially for Valentine's. Yuki is passionate about the French Baroque period, which she references through innovative and unique use of materials and techniques, creating distinctive pieces of dramatic beauty. The Hetty Rose label designs and handmakes exquisite shoes that are both creative and sustainable, using vintage Japanese kimono fabrics. Both labels evoke a disappearing world, creating work saturated with history and meaning.
