

Hetty Rose

Kurv Christmas Book 08

Hetty Rose are luxury, exclusive bespoke shoes made of recycled kimono and leather vintage fabrics.

Based on a theory of re-using and re-working vintage materials in a creative and sustainable way, Hetty Rose hand makes shoes to fit. The designer hand selects the most exquisite fabrics from Japan to use as uppers for shoes and creating unique footwear. These are then skillfully combined with hand crafted wooden heels, recycled leather and natural leather soles creating modern-stylish footwear.

The designs are simple yet provocative, with colour being the overriding attraction to the shoes. This collaboration of color, materials, service and directional design, result in unique, wearable footwear. Hetty Rose shoes appeal to the individual who craves authentic and individual products to enrich their life.
