Shoe Designer Hetty Rose on...

How to customise an old pair of jeans... "It's easy to achieve a distressed look by rubbing [your jeans] with a pumice stone on certain areas of the legs (thighs, bum, top front pockets), but not too hard so build it up by doing it carefully. Simply pin brooches onto front pockets, or a cluster of them would be lovely."

On revving up a tired denim jacket... "You can buy studs which are easy to attach to a collar for impact. Or go for vintage brooches and sequins. Fold up the sleeves and make a feature of the cuffs."

Net-Detail Jeans, £235 from Siwy at www.bunnyhuq.co.uk.
